

TECHNICAL SYSTEM DESCRIPTION

INTERIO P113 system produced by Tehnomarket is used for double glass partition walls and interior doors. It was designed for modern commercial applications and projects that require exclusive materials, quick, dry installation and refined appearance. INTERIO P113 system is available in two visually distinct options: with aluminum doorframe and optional wooden door, as well as glass option with the integrated glass door, with or without aluminum frame. The system is designed for the maximal transparency and exceptional privacy due to increased sound insulation, all with a small footprint and space usage.

- Aluminium profiles were manufactured in Tehnomarket's own extrusion factory. The raw material used is primary aluminium alloy AlMgSi0.5 (AA 6063 and AA 6060).
 - The basic system profiles have a 25mm visible height and 113mm installation depth.
 - System is compatible with glass panels from 6mm to 13,5mm in the fixed partitions and glass doors.
 - Support for 38mm thick wooden door panel
 - aluminum door frame width 48mm
 - Maximal door height of 2700mm with 100kg maximal weight.
 - INTERIO P113 system supports maximal partition height of 3240mm.
 - Up to 1500mm wide partition elements.
 - Two finish options: RAL powdercoating and anodisation
-
